TYPHOON FLASH 2 CD

PRODUCT SPECIFICATION

Introduction

Typhoon Flash 2 CD provides a friendly way to duplicate your digital data to CD-R/CD-RW without connecting to a computer. You can record your favorite digital photo, MP3 and other files from Flash card or Computer to CD-R/CD-RW. The Typhoon Flash 2 CD supports 7 different flash card formats: CompactFlash (TypeI / TypeII), Micro Drive , SmartMedia, MMC, SD, Memory Stick and Memory Stick pro. The device can be easily used at anytime and anywhere. The product functions secondarily as a normal audio CD player. The operation can be done very easy with one LCD status display and quick access to five buttons on the top panel.

Designed for archiving your digital data and images, the Typhoon Flash 2 CD uses the NERO burner software on your computer for full duplication functions. An external drive in design with USB 2.0 interface for full Plug-n-Play installation and fast transfer. Comes with Audio output to turn it into your regular music CD player. Record your flash memory card with a single REC button and multi session with other memory cards to a single CD-R or CD-RW.
